

International Drum Circle Finder

Tribal & facilitated drum circle listings for Australia, Canada, The UK, Europe, & most other countries. They are all are current & updated to the best of my knowledge. If you know of a new drum circle, a correction, or a regular meeting drum circle in your area that isn't listed, please let me know so I can include it. Also check the bottom of the page for the FaceBook drum circle finder page, the drum circle Meetup.com directory, and lots more. This page was last updated February 2018

I've been maintaining and updating this list for about 18 years. I try to make it as user friendly as possible. I just want to help get the word out where drum circles are. Hopefully there is one near you to check out, or if you're traveling somewhere, it will help you find one. You don't need to [register](#), [sign up](#) for anything, and there's no charge to list yours. To email me with a drum circle update, or a new one: [drumcircles_net\(at\)hotmail.com](mailto:drumcircles_net(at)hotmail.com)

These drum circle listings are listed by country. (Not alphabetically) Click below on the one you're interested in, and it will jump to it. (or, scroll down.) Most of these circles are well established.

I work with a variety of groups, and I facilitate drum circles around the ST. Louis, Missouri area. I do some charity work for a number of worthwhile organizations. There is a little wear and tear on the drums & percussion I provide at these events. The proceeds from the sales of my drumming CD's, DVD's, and drum circle book help me to fund work in our community, & keep this site going. I try to offer them at as reasonable a cost as possible.

As an independent artist, funds are always tight, so I always appreciate a product that is a good value [for the money](#). That's the idea behind my book, CD's & DVD. If you can purchase something from me, Thanks in advance for helping us out with repairs, and expenses to keep things going.

Need Some Drum Circle Advice?

If you need some advice, suggestions, ideas, or anything at all about hosting any form of drum circle, I am more than happy to try and help you along. Even if you aren't sure what kind of drum might be right for you, or your group, just email me and I will try to help you out. I don't actually sell drums, but I do have years of experience with most major brands, styles, and retailers.

I can suggest the places to you I've bought mine from. If you are wanting to host or facilitate drum circles, this art form has evolved a lot in the last 10 years alone. Art can be very subjective. There used to be only one or two widely accepted ways to facilitate drum circles. Just like there are many ways to paint art, now there are dozens of styles all around the country, and around the world.

300 page book, "A Practical Guide To Hand Drumming And Drum Circles"

If your desire is to get much more in depth with this, please consider picking up my book. It goes into starting a drum circle, or drumming program, and how to keep it fresh and interesting for all different kinds of groups. I cover all of this, and much more in great detail. There is increasing recognition of the health benefits of music therapy, particularly facilitated hand drumming, which is what I do for a living. Unfortunately, places where the people who benefit the most, such as DEAF, senior centers and special needs orgs can not afford to pay for this. I have never recieved any grants, assistance, or funding.

If you would be willing to make a purchase or contribution of any amount to help me continue to provide therapeutic music to groups like this, it would help out a little.
